

Fawn Runner \$8.00 each, Straight run Sku 450013

Fawn and White Runner ducks are a lightweight, active, and popular breed of duck. They are known for their upright stance, egg-laying abilities, and friendly temperament.

Physical characteristics

Hens weigh around 3.25 lbs, while drakes weigh around 4 lbs.

Temperament

They are very active and constantly on the move. They can be friendly and get along well with other ducks. They can have a slightly nervous temperament and easily panic in response to danger.

Egg-laying

They can lay 100–180 large to extra large eggs per year. Most of their eggs are white, but about 35% are bluish.

Uses

They can be raised for both meat and eggs. They also can be used as show birds. They are a good alternative to pesticides because they eat insects, slugs, and other bugs.
